TADULAKO SCIENCETECH JOURNAL

VOLUME 4 NO. 2 YEARS 2024

FOCUS AND SCOPE OF THE JOURNAL

Tadulako Sciencetech Journal is a global, open access publication of scientific articles intended as a vehicle for disseminating new research findings in the fields of science and technology. Manuscripts published in the Tadulako Sciencetech Journal develop the scientific principles underlying innovative technologies and present scientific advances that enable real-world applications across a variety of scientific disciplines. Therefore, papers published in the Tadulako Sciencetech Journal are accessible to a wider audience, not only to the traditional academic sector but also to policy institutions, industry, the general public, and the media. It is published twice a year, published in July and December in electronic format with free online access. Submitted papers must be written in English for the initial review stage by the editor and the subsequent review process by a minimum of two international reviewers.

Articles published in the **Tadulako Sciencetech Journal** Publication Center include the results of original scientific research (top priority), new scientific review articles (not priority), or comments or criticism of existing papers. The Research Results Publication Center accepts manuscripts or articles in the scientific fields of science and technology. from various academic circles and researchers both nationally and internationally.

The articles published in the journal are articles that have gone through a review process by Mitra Bebestari (peer-reviewers). The **Tadulako Sciencetech Journal** Publication Center only accepts articles originating from original research results (top priority), and new scientific review articles (not priority). The decision whether or not to accept a scientific article in this journal is the right of the Editorial Board based on recommendations from Mitra Bebestari.

JOURNAL INDEXATION INFORMATION

Tadulako Sciencetech Journal with e-ISSN: 2776-4893, p-ISSN: 2776-4907 <https://bestjournal.untad.ac.id/index.php/sciencetech> is a peer-reviewed journal which plans to be indexed in several reputable indexers, including others: **Google Scholar; Digital Reference Guard (GARUDA), Directory of Open Access Journal (DOAJ).**

FOREWORD

Tadulako Sciencetech Journal is a global, open access publication of scientific articles intended as a vehicle for disseminating new research findings in the fields of science and technology. Manuscripts published in the Tadulako Sciencetech Journal develop the scientific principles underlying innovative technologies and present scientific advances that enable real-world applications across a variety of scientific disciplines. Therefore, papers published in the Tadulako Sciencetech Journal are accessible to a wider audience, not only to the traditional academic sector but also to policy institutions, industry, the general public, and the media. It is published twice a year, published in July and December in electronic format with free online access. Submitted papers must be written in English for the initial review stage by the editor and the subsequent review process by a minimum of two international reviewers.

Tadulako Sciencetech Journal Results Publication Center publishes the only paper that strictly follows the guidelines and templates for manuscript preparation. All submitted manuscripts will go through a double-blind peer review process. The paper is read by editorial members (according to their area of specialization) and will be screened by the Managing Editor to meet the criteria required for publication. The manuscript will be sent to two reviewers based on their historical experience in reviewing manuscripts or based on their area of specialization. Tadulako Sciencetech Journal Publication Center has reviewed the form to keep the same item reviewed by two reviewers. Then the editorial board makes a decision based on the reviewers' comments or suggestions.

Reviewers provide an assessment of originality, clarity of presentation, contribution to the field/science. This journal publishes research articles, review articles/literature studies, case reports and concept or policy articles, in all scientific fields of science and science. technology. The articles that will be published are original works and have never been published. Incoming articles will be reviewed by a team of internal and external reviewers.

The Editorial Board will continue to strive to improve the quality of the journal so that it can become an important reference in the development of science. The deepest appreciation and thanks to Mitra Bestari together with the members of the Editorial Board and all parties involved in publishing this journal.

Regards,

Chief Editor
